EXPERIENCE

Which Bin - *Software Developer*

Co-created website for Seattle residents to easily decipher if an item should be placed in the recycle bin, compost bin, or garbage bin. Users type in the item they are trying to dispose of and are effortlessly guided through specific questions to come to the conclusion of which bin to place the item in.

Technologies: HTML, CSS, JavaScript, JSON, Git

Developer Connector - *Software Developer*

Implemented entire single-page web application that connects software developers through searching capabilities to find and connect with other developers. Built features enabling developers to have profiles, news feeds, comment on and like posts, etc.

Technologies: HTML, CSS, JavaScript, React, Node.js, Express.js, MongoDB, Git, Postman

To-Do List - *Front-End Developer*

Developed a beautiful and seamless experience for users to easily keep track of the items on their to-do list. Utilized React State Hooks to develop dynamic components. Gained experience turning wireframes and mockups into elegantly executed, responsive code.

Technologies: HTML, CSS, JavaScript, React, Node.js, Git

Additional Technologies: Angular, Sass, TypeScript, jQuery, Bootstrap, EJS, NoSQL, Adobe Photoshop & Illustrator
